RURAL SCHOOLS GRANTS PROGRAM

Eligible Locations

2020 is the launch year of the Feed Appeal Rural Schools Grants Program. This program aims to provide a source of funding into regional/remote locations to ensure all Australian children have access to food, are nourished, and can reach their potential.

We are aware that funding and programs are available in most metropolitan and immediately surrounding locations. We do not wish to replicate the great work being completed in these areas by other socially conscious organisations.

The list of postcodes and areas listed below is based on data from the Australian Bureau of Statistics and what they regard as regional Australia with some modifications to accommodate locations we are partnering with Eat Up to provide a meal solution.

To be eligible for a Rural Schools Grant your school must be in one of these postcodes. If the postcodes are highlighted in blue, please ensure you apply for a grant to access the Eat Up program.
